

Formula AI Global — for chemical manufacturers

Lower costs · Faster R&D · Audit-ready compliance

Your factory doesn't buy AI — it buys results

A private chemistry-intelligence platform that turns 25 years of industrial formulation expertise + a 3,381-formula knowledge base into measurable outcomes for your plant.

■ Reduce material cost Substitute intelligence + supplier price alerts.	■ Faster time-to-market Hours, not months, from idea to a working draft.
■ Consistent quality Stability, compatibility & QC checks built in.	■ Audit-ready compliance GHS MSDS + EU REACH / FDA / SFDA / SASO docs.

What's included

- **Private formula vault** — your IP, isolated, never used to train any model.
- **Multi-seat team accounts** — 5–200 users, per-role access, one invoice.
- **Compliance documents** — GHS MSDS + registration docs, signed by a chemist.
- **AI assistant on your data** — answers in-context about your own product line.
- **Supplier intelligence** — trusted/avoid ratings + price-move & shortage alerts.
- **Batch calculators & QC** — cost, scale-up, pH, HLB, stability — in the plant.

Security & trust

Mutual NDA on every engagement · data isolated per company · row-level security · GDPR-aware logging · EU + US + GCC regulatory coverage.

Built by an operator, not a lab

Founder Jamil Abduljalil: 25+ years of hands-on industrial chemistry across multiple countries, overseeing 2,000+ tons/month, and founder of the DosLunas plant (50+ tons/day). The platform solves the problems he lived.

From \$500/month, scaled to team size. No setup fee. Annual or quarterly. 30-day cancellation.
